

## **Print-X**

The new Stabil-X eco print line.

**Print-X**

**The latest innovation in Stabil-X technology**

- Novelty in carcass design with strong man made canvas on the bottom
- New solvent less carcass design. The polymer compressible layer has been engineered to provide exceptional smash absorption and recovery properties.
  - Good overall print quality on a variety of stocks
  - Good compressibility
- Higher press productivity and subsequent cost reduction

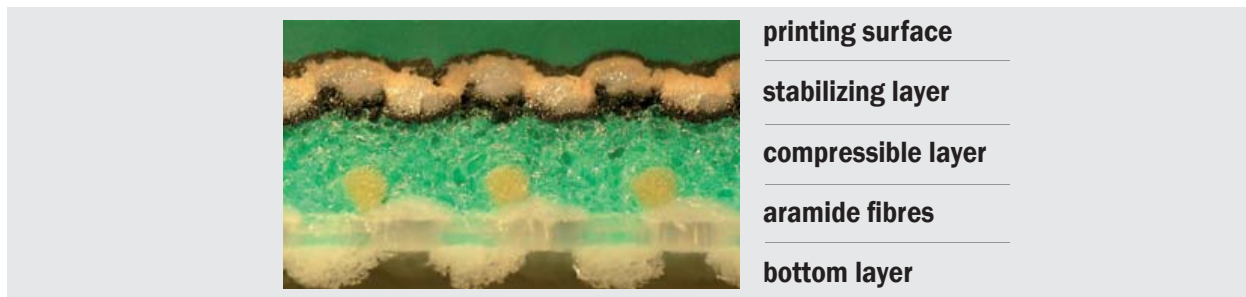

Good overall print quality on large variety of stocks

Robust carcass : high smash resistance for high longevity

Highly resilient

User friendly to the printer : no routine changes

Technical Data Sheet	PRINT-X
<b>GENERAL</b>	
Applications	sheetfed presses (all sizes)
Printing surface colour	dark green
Nominal thickness	1.97 mm +/- 0,02
<b>PRINTING FEATURES</b>	
Printing surface finish	micro-ground and polished
Surface roughness	0,9 - 1,4 µm
<b>MECHANICAL FEATURES</b>	
Load at 230 µm	18 daN/cm <sup>2</sup>
Fabric plies	2 + aramid fibres
Elongation at 200 N/cm	<1.0 %
Maximum tensile force (DIN 16621)	4500 N/50 mm
