

DigiBlanket 3

Leading the way in specialist printing consumables

Use

For non-destructive coating thickness measurement.

DigiBlanket 3 is a device used to measure the thickness of a blanket or plate including the underpacking.

Eliminate your measurement errors. Get it right every time.

Benefits

- S Simple to use and ready to measure
- S High precision measurement up to 15mm
- S Wear resistant probes that last
- S Optimized temperature compensation
- S Gives characteristic curves with up to 50 data points
- S Stores 100,000 values
- S 25 different languages
- S Infra-red data transmission to PC
